MEMORANDUM FOR THE RECORD

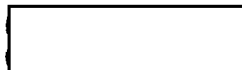

SUBJECT: Conversation with Ambassador Robert Strausz-Hupe,
14 June 1979

1. I had a phone call from Ambassador Robert Strausz-Hupe of the University of Pennsylvania. He asked if I would meet with a seminar of students from the University next fall. The seminar will be coming to Washington and hoping to meet with a series of government officials. I told him that either I or the DDCI would do this.

2. I further told him that I might prefer to come to the campus and meet with the students. If so, I would also like to make a public address in the evening on the campus. I would probably make a speech to the World Affairs Council at noon in Philadelphia on the same day. He indicated that he thought that could be arranged very easily. I said it was too early for me to decide on this, but that I would keep it in mind.
